

# ACHILLES

## SMOOTHING CREAM FOR HEELS

**Keratolytic smoothing cream for feet and elbows**, suitable for all situations of **skin hyperkeratosis and thickening of the epidermal stratum corneum**.

Natural ingredients are delivered in an O/W cream base with **wheat protein** emulsifier and **shea butter to enhance penetration**.

Non-greasy, easily absorbed.

## METHOD FOR USE

Apply twice a day only on hardened areas.

## INGREDIENTS

**UREA 30%:** keratolytic action. At low doses, it provides an hydrating benefit because it is part of the NMF, the natural skin's moisturizing factor. At high concentrations, it penetrates the epidermal corneocytes, causing them to detach, thus exfoliating and shedding dead cells.

**SHEA BUTTER 5%:** emollient, hydrating, and softening action. It also provides a local anti-inflammatory effect.

**VEGETABLE GLYCERIN 10%:** at high concentrations it optimizes the effect of urea.

**FREE FROM** petrolatum, parabens, EDTA.

**I.N.C.I.:** Aqua, Urea, Glycerin, Cetearyl alcohol, Butyrospermum parkii butter\*, Caprylic/capric triglyceride, Dicaprylyl ether, Glyceryl stearate, Potassium palmitoyl hydrolyzed wheat protein, Cetyl alcohol, Phenoxyethanol, Carbomer, Parfum, Tetrasodium glutamate diacetate, Scleroglucan, Benzoic acid, Dehydroacetic acid, Linalyl acetate, Tetramethyl acetyloctahydronaphthalenes, Hexamethyl indanopyran, Ethylhexylglycerin, Terpineol, Anethole.

\*From organic farming.
