

THE PRECIOUS CREAM

RICH NOURISHING AND MOISTURIZING FACE CREAM.

Moisturizing and nourishing face cream for dry to very dry skin. A rich and concentrated texture deeply nourishes the skin, reducing sensations of dryness and tightness. The high concentration of plant butters and oils ensures a long-lasting effect, while hyaluronic acid hydrates the surface and leaves a velvety finish.

FRAGRANCE

ROSA.

METHOD OF USE

Use once needed.

INGREDIENTS

HYALURONIC ACID: a high molecular weight hyaluronic acid is used to form a protective film on the skin's surface, capable of retaining and binding water to the epidermis while simultaneously providing a velvety touch.

SCLEROGLUCAN: this is a polysaccharide produced by a fungus of the Sclerotium genus. In cosmetics, it has a technical function as a stabilizer of emulsions and a regulator of the release of active ingredients. At the same time, thanks to its ability to absorb water, it forms a protective film that results in increasing and maintaining skin hydration and improving the texture of products.

NATURAL EMULSIFIER: made from natural rice, candelilla and jojoba waxes and free of PEGs, it has the technical function of emulsifying the oily phase with the aqueous phase, but also has an active action on the skin. Rice, Candelilla, and Jojoba waxes are capable of absorbing up to six times their weight in water, creating a real cushion of hydrating water on the skin that lasts for over 24 hours. The sensation to the touch is a velvety, soft effect that is an alternative to that normally achieved with synthetic compounds such as silicones.

SHEA BUTTER: moisturizing eudermic action. The unsaponifiable fraction in which it is rich is particularly similar to skin lipids, thus promoting the restoration of the integrity of the skin's hydrolipidic film and consequently hydration and protective effect.

COCOA BUTTER: emollient and moisturizing properties due to the formation of a fatty film on the skin's surface that protects it and keeps it supple.

CAMELLIA OIL: rich in unsaturated fatty acids, it has remarkable hydrating, protective, and emollient properties and a light, delicate texture.

JOJOBA OIL: highly resistant to oxidation, it is particularly suited to our skin, where it has a hydrating, anti-wrinkle, and restoring effect on the natural hydrolipidic film. It also has a proven anti-inflammatory effect.

BEESWAX: has water-repellent and protective properties on the stratum corneum, forming a protective film that can prevent excessive water loss from the skin.

VITAMIN E.

FREE FROM parabens, EDTA, petrolatum, silicones, PEG.

I.N.C.I.: Aqua, Butyrospermum parkii butter*, Camellia oleifera seed oil*, Simmondsia chinensis seed oil*, Theobroma cacao butter, Glycerin, Cetearyl alcohol, Dicaprylyl ether, Sodium stearoyl lactylate, Glyceryl stearate, Candelilla/jojoba/rice bran polyglyceryl-3 esters, Hydrogenated olive oil unsaponifiables, Hydrogenated ethylhexyl olivate, Cera alba, Scleroglucan, Parfum, Tocopherol, Tocopheryl acetate, Phenoxyethanol, Tetrasodium glutamate diacetate, Sodium hyaluronate, Benzoic acid, Dehydroacetic acid, Ethylhexylglycerin.

*From organic farming.

PACKAGING

50 ml aluminum tube + outer box.
